Halliard Sustainability

Lower Park School

School Action Plan April 2025 to March 2026

This school-level single page action plan supports the delivery of the Halliard Trust Sustainability Strategy

Strategic Pillar	Actions / Goals
Community	Our eco-club/student council representatives will meet with a local MP to seek to effect policy change to support sustainability We will engage with Cheshire Wildlife Trust to build a pond using funding from Tesco.
Curriculum	We will continue to offer Nature Club as part of our enrichment programme We will engage with the Trustwide sustainability fortnight with the following activities: We will measure our pupils' carbon literacy and personal attitudes to sustainability We will measure the biodiversity of our school sites
Culture	We will take the following measures to increase recycling at source: Purchase recycled paper Our site manager will carry out a thorough check of all powered appliances before each school holiday
Campus	We will aim to reduce our gas and electricity usage by 5% after adjusting for external temperature We will begin to measure our waste usage We will make improvements to our bathrooms to reduce our water usage.
